DEPARTMENT OF COMMERCE  
UTILITIES BOARD

IN RE:  OSAGE MUNICIPAL COMMUNICATIONS UTILITY	DOCKET NO. 199 IAC 39.2(4)
---	----------------------------

**ORDER DESIGNATING ELIGIBLE CARRIER**

(Issued July 23, 2002)

On July 3, 2002, Osage Municipal Communications Utility (Osage) filed with the Utilities Board (Board) an application for universal service eligible carrier status in Iowa. Osage asks that the Board designate Osage as an eligible telecommunication carrier (ETC) pursuant to 199 IAC 39.2(4). No objections have been filed regarding this application.

Board rule 39.2 provides a means by which the Board can designate Iowa telecommunications companies to be eligible to receive funding from the universal service fund, as defined by the Telecommunications Act of 1996, 47 U.S.C. § 254. Under the Act (and Federal Communications Commission (FCC) regulations implementing the Act), the Board must determine that a carrier meets the following service requirements before it may be designated an eligible carrier, as set forth in subrule 39.2(4):

- 1) Offer the services supported by the federal universal service fund;

2) Offer the service using its own facilities or a combination of its own facilities and resale (47 C.F.R. § 54.201(c) provides that “own facilities” include purchased unbundled network elements);

3) Advertise the availability of the supported services; and

4) Offer the services throughout the designated service area.

In its request for designation, Osage states that it satisfies each of these named requirements. Based on that representation, the Board finds that Osage offers the services supported by the federal universal service fund, using its own facilities or a combination of its own facilities and resale. The Board also finds that Osage advertises and offers the services throughout its designated service area.

The Board also notes that pursuant to a recent federal mandate, Osage is required to file a certification regarding its use of universal service funds with the Board by September 10, 2002. This filing will be made pursuant to the Board’s recently adopted subrule 199 IAC 22.2(7), as described in Docket No. RMU-01-14.

**IT IS THEREFORE ORDERED:**

1. Eligible telecommunications carrier status is granted to Osage Municipal Communications Utility as requested on July 3, 2002. The designated service area shall be Osage Municipal Communications Utility’s service territory as established in its certificate of public convenience and necessity.

2. The Executive Secretary of the Utilities Board shall mail copies of this order to Osage Municipal Communications Utility, the Universal Service

Administration Company, the Federal Communications Commission Universal Service Branch, and the Federal Communications Commission Office of the Secretary.
